

ANAESTHESIA AND INTENSIVE CARE

Journal of the Australian Society of Anaesthetists

INDEX

Volume 22, 1994

(C) indicates correspondence

(R) indicates book review

Anaesthesia and Intensive Care, Vol. 22, No. 6, December, 1994

INDEX

- A classification of anaesthesia for record purposes: Grant C. G., **461**
- A comparison of syringes to collect blood for analysis of gases, electrolytes and glucose: Carter B. G., Tibballs J., Hochmann M., Osborne A., Chiriano A., Murray G., **696**
- A comparison of the effect of propofol or thiopentone on the incidence and severity of suxamethonium-induced myalgia: McClymont C., **147**
- A comparison of three induction agents in paediatric anaesthesia—cardiovascular effects and recovery: Jones R. D. M., Visram A. R., Chan M. M. Y., Bacon-Shone J., Mya G. H., Irwin M. G., **545**
- A double-blind comparison of vecuronium administered by the Springfusor infusion device to vecuronium by intermittent bolus injection in critically ill adult patients: Freebairn R., Joynt G. M., Lipman J., Bothma P. A., **580**
- A national survey of atropine use by Australian anaesthetists: Parnis S. J., van der Walt J. H., **61**
- A novel equipment bridge for helicopter transport of critically ill patients: Evans J. S. M., Hotter A., **284**
- A simple method of bronchoalveolar lavage: Schindler M. B., Cox P. N., **66**
- Abdulatif M.: Sodium nitroprusside induced hypotension: haemodynamic response and dose requirements during propofol or halothane anaesthesia, **155**
- Abstracts of Papers: Abstracts of the Annual Scientific Meeting of the Australian and New Zealand College of Anaesthetists and Faculty of Intensive Care—Launceston, Tasmania, May 1994, **475**
- Abstracts of papers: Abstracts of the Annual Scientific Meeting of the Australian Society of Anaesthetists, Perth, Western Australia, October 22-17, 1993, **97**
- Abstracts of Papers: Abstracts of the 18th Scientific Meeting of the Australian and New Zealand Intensive Care Society, Perth, Western Australia, October 1993, **211**
- Aconite poisoning managed with a ventricular assist device: a case report: Fitzpatrick A. J., Crawford M., Allan R. M., Wolfenden H., **714**
- Acupressure, P6, and nausea and vomiting after gynaecological surgery: Allen D. L., Kitching A. J., Nagle C., **691**
- Acute necrotizing myopathy and acute renal failure in association with acute severe asthma: O'Leary M. J., Honavar M., Coakley J. H., **729**
- Adult respiratory distress syndrome caused by superior mesenteric artery syndrome: Banerjee A., O'Neil R., Bidstrup H., **602**
- Adult respiratory distress syndrome—an update: Chapman M. J., **255**
- Adverse incident reporting in intensive care: Hart G. K., Baldwin I., Gutteridge G., Ford J., **556**
- Agiomea K.: see Sparks C. J., **187**
- Air, use of, to maintain nitrogen stores during low flow and closed circuit anaesthesia: Stokes J. W., **391**
- Airway anatomy, upper, assessment of in awake, sedated and anaesthetised patients using magnetic resonance imaging: Shorten G. O., Opie N. J., Graziotti P., Morris I., Khangure M., **165**
- Alexander K.: See Blake D., **752**
- Allan R. M.: see Fitzpatrick A. J., **712**
- Allen D. L., Kitching A. J., Nagle C.: P6 acupressure and nausea and vomiting after gynaecological surgery, **691**
- Alterations in endotracheal tube position during general anaesthesia: Yap S.-J., Morris R. W., Pybus D. A., **586**
- Anaesthesia for laser prostatectomy: Costello T. G., Costello A. J., **454**
- Anaesthesia for three-stage thorascopic oesophagectomy: an initial experience: Chui P. T., Mainland P., Chung S. C., Chung D. C., **593**
- Anaesthesia for thymectomy in myasthenia gravis: a non-muscle-relaxant technique: El-Dawlatly A. A., Ashour M. H., **458**
- Anaesthesia in a patient with untreated myxoedema coma: Cone A. M., **295**
- Anaesthesia-induced rhabdomyolysis causing cardiac arrest: case report and review of anaesthesia and the dystrophinopathies: Farrell P. T., **597**
- Anaesthetic clinic, referral of surgical patients to: A decision-making analysis: Lee A., Lum M. E., Hillman K. M., Bauman A., **562**
- Anaesthetic management for laparoscopic sterilization and termination of pregnancy in a patient with severe primary pulmonary hypertension: Myles P. S., **465**
- Anaesthetic management of a patient with severe bullous lung disease complicated by air leak: Myles P. S., Moloney J., **201**
- Anaesthetic management of tracheal surgery using the laryngeal mask airway: Divatia J. V., Sareen R., Upadhye S. M., Sharma K. S., Shelgaonkar J. R., **69**
- Analysers, in-circuit: Ilsley A. H., Lillie P. E., **415**
- Analysis of gases, electrolytes and glucose, a comparison of syringes to collect blood for: Carter B. G., Tibballs J., Hochmann M., Osborne A., Chiriano A., Murray G., **696**
- Anaphylactic reaction to chlorhexidine in urinary catheter lubricant: Russ B., Maddern P., **611**
- Anaphylactoid reaction: oxygen transport and haemodynamic changes during an: Fawcett W. J., Shephard J. N., Soni N. C., Barnes P. K., **300**
- Antacids, non-particulate, in vitro buffering capacities of proprietary, available in New Zealand: Watts D. W., **184**
- Anti-cardiolipin antibody syndrome as a cause of failure of central venous cannulation, Brachiocephalic vein obstruction: Watts A. D. J., Platt P. R., **197**
- Apnoea, postoperative, in infants: Sims C., Johnson C. M., **40**
- Apnoea, prolonged, suxamethonium-induced in a premature neonate: Frawley G. P., Carden J. R., **192**
- Aprotinin, high dose, in cardiac surgery: Swart M. J., Gordon P. C., Hayse-Gregson P. B., Dyer R. A., Swanepoel A. L., Buckels N. J., Schall R., Odell J. A., **529**
- Ashour M. H.: see El-Dawlatly A. A., **458**
- Assessment of upper airway anatomy in awake, sedated and anaesthetised patients using magnetic resonance imaging: Shorten G. O., Opie N. J., Graziotti P., Morris I., Khangure M., **165**
- Asystolic cardiac arrest during laparoscopic cholecystectomy: Biswas T. K., Pembroke A., **289**
- Atropine use by Australian anaesthetists, a national survey of: Parnis S. J., van der Walt J. H., **61**
- Au-Yeung P.: (C), **111**
- Aun C.: (R), **751**
- Avraamides E. A.: see Sims C., **272**
- Awake fiberoptic intubation via a laryngeal mask in an infant with Goldenhar's Syndrome: Johnson C. M., Sims C., **194**
- Babarczy A.: (C), **497**
- Back to basics—a simplified non-mathematical approach to low flow techniques in anaesthesia: Baker A. B., **394**
- Bacon-Shone J.: see Brown A. G., **150**
- See Jones R. D. M., **545**
